ed a concurrent resolution for the final adjournment of Congress on July 20, but he has little hope that it will get away as soon as that, unless a great change takes place very soon. A good deal of nonseuse is being talked about the probability of the election being thrown into the House because of the defection of the Silver States from the Republican ticket. Few people can be found here who honestly believe that the voters of any State heretofore Republican will prefer Weaver or Cleveland to Harrison; but, allowing for the sake of argument that Mr. Harrison should lose all of the new State and the five Michigan votes, and hold the other States he carried in 1888, he would get 225 electoral votes, which would be two more than would be neccesary few months, and to know that Mr Rogto elect him. Much of this talk about ers is editor of this wonderful paper, throwing the election into the House comes from the Democrats who are inclined to favor the free coinage of silver of the possibility of the House which, when voting by States, would be controlled by the Silver men, elect-

A most singular accident befel A. M. Moore on the fourth at Eagle ake, I. T. Moore with a party of several others, went into camp at the ake on the evening of the 3d. On the morning of the 4th Moore with his fishing pole waded out to a log on the lake, where he sat down. He was barefooted. While moving his left foot to and fro in the water a arge fish, supposed to be a black oass, made a sudden lunge and grabed the toe in its mouth, sinking his teeth into the flesh to the bone. Moore rolled from the log into the water, which was waist deep. He waded to the shore, the bass still clinging to histoe. In the shallow water Moore gathered the fish and pried open its mouth, the fish escaping into the water. The toe wos so badly lacerated that Moore is unable to walk to-day, and the member will probably have to be amputated.

We have a superintendent endowed with the power to bring about such a change, but is he willing to incur the censure he would be likely to receive from a great many old fogies for doing his best for county and for his State?

> At ten o'clock we repaired to the Opera House where the initial meetng of the Association was to be held.

> We believe he is brave enough to

make such a self sacrifice.

On the stage sat the officers of the Association, the board of Education of Paducah, and the orators of the Association, and whose duty it shall occasion. The meeting was called to be to try to get as many of the teachorder by President, C. H. Dietrich, er of Ohio county to attend as possi-Hopkinsville, who introduced the ble. It would be well if the Institu-Rev. W. E. Cave who invoked the divine blessing upon the Association.

After this Hon, E. W. Bagby, was introduced as the orator of the occasion to deliver the address of welcome. This address was a most eloquent and scholarly tribute to the cause of education in general and the teachers of Kentucky in particular. This admirable address will be published in the Courant and many other papers of the State. Hon. Ed Porter Thompson responded briefly and fittingly, after which a vote of thanks was extended by the Association to

Mr. Bagby for his eloquent address, After some routine work Mr. C. H. Carothers, Editor Educational Courant. Louisville, read an admirable paper on University Extension. It was a well written paper and Mr. Carother's tone and delivery made it doubly attractive.

During the afternoon the subject-Psychology as adepted to the needs of our Teachers was discussed, Prof. E. C. Fox in his speech on this subject said some things that were well calculated to displease a great many of our teachers, Mr. Fox seems to think the common school teachers are not sufficiently advanced in their studies to study Psychology. Thinks we are totally dependant upon the city teachers for advice and decision on all points of controversy. We were strongly impelled to respond to this speech by saying something in defense of our teachers, but timidity prevented us at the time. However we had the opportunity, aided by the convincing arguments of the whole soul-

ed Miss Lucy Townsend, to give him to understand we considered his speech inapplicable to our teachers and our reasons for so thinking.

At the evening session Mr. J. B. many good things and told many an investment.

funny things but it was entirely too long to be rightly appreciated.

Tuesday's session began at 9 o'clock in order to complete the entire program, the whole to conclude with a banquet in the evening at the Palmer Hotel.

The speeches and papers of to-day have been very good, but nothing seems to call for especial notice, except the paper read by Prof. Mccompany with a large number of Henry Rhoads at the Superintendteachers, among who, was Prof. Mc- ents session which convened at 2 Henry Rhoads, of Frankfort. We o'clock p. m. at the High School were met at the depot by members building. This was a most excellent paper and set forth the needs of a proper course of study for our common schools and offered the best plans for meeting this long felt want. After its reading, the remainder of the time was taken up in its discussion. The sentiment of this paper embodied in a resolution was afterwards unanimously adopted by the Association.

A resolution distinguishing between school districts, in allowing one longer school term than another be cause such district contained more pupils, was repeatedly voted down as it should be. The idea of our school system is not to favor one section more than another, and any law that gives one child a longer school term than another, violates this principle and should be repealed at once.

After adjournment at 5 o'clock p m., the electric street cars were collected at the Opera House to take the Association on a free 3 mile ride out to the Park then back and out another street to Oak Grove Cemetery. Both of these places were very beautiful and to say we enjoyed the trip would convey but little of the pleasure derived from the occasion.

At the evening session Prof. Stoaks, of Madisonville, gave a chalk talk which was very instructive. His speech was illustrated by off hand sketches that were very beautiful and served to make an otherwise dry talk very interesting. After this the Association repaired to the banquet. The toasts made on this occasion were very good but the one we liked best was responded to by Mr. R. H. necessary things to render it other Carothers, of Louisville, -"School wise. A school with a conscientious Ma'ams." It was amusing to hear teacher supplied with such maps, his reference to the change from the globes and etc., as are to be had at he to the she that has taken place in nominal cost, will not be wanting in in- the gender of our teachers. He was at loss to know how the he's were to regain their old position but advised the old bachelors to ask some school ma'am that night "to go with them the long way."

> The Association adjourned to meet next year at Louisville. From the success of this meeting we hope for much from the next meeting of the Educational Association of Kentucky, While Ohio county was better rep-

> resented, at this meeting than her sister counties, it was not represented as it should be, or as it ought to be next vear. It seems wise and right for our Institute this summer to select at least two of our most thorough going teachers, who, with our Superintendent, shall attend the meeting of this tes of each county would do likewise. Let us think about it until the time and select two or more of Ohio county's most experienced teacher to rep-

Most of the teachers left Paducah Thursday morning but Mrs. Wedding, Miss Townsend and your writer remained until Friday spending Thursday sight-seeing about Pudacah. We left Paducah feeling very kindly toward the people of that place and so glad we were fortunate enough to attend the most successful meeting in the history of Kentucky's Teachers

Woman, Whisky and Horses.

Sam Burdett comes before the pubhe with a newspaper article on Kentucky's "beautiful women, fine horses and seductive whisky." We again protest against Kentucky women being classed with horses and whisky. Kentucky women are the most beautiful the earth affords, Kentucky whisky is the best that is made, and Kentucky horses the most perfect that grow, but if Kentucky's women are no better than her whisky andhorses, we had better quit bragging on them. Let us quit this ungentlemanly, wanton and contemptible practice of comparing our noble women only with our horses and whisky. They either deserve more respectful treatment or nothing The paper that persist in at all. thus slurring the women of the State should be banished from the household of ever self-respecting lady in Kentucky.

I can sincerely say that Pastor Koenig's Nerve Tonic has acted wonderful; since my boy commenced to use it he has not had the slightest symptoms of fits and is getting stout and hearty; every one is surprised at the result, because i had bought eight bottles of medicines from New York at \$4.00 per bottle which did no good.

It is time for the Republicans of every precinct in Ohio county to organize clubs for the present campaign. They are organizing in other counties. The Republicans of Hart. ford precinct will organize to-morrow night, the colored voters of Hartford precinct will organize a club to-night, and there are already clubs organized in Cromwell precinct and at Taylor Mines, but it it is now time for every precinct to have a regular organized Republican club. We would urge all Republicans to remember that "eternal vigilance is the price of liberty." Let the good work go on, Organize.

SKEERT.

The Herald published on the 29th, ult., what it claimed to be the Plat-

the only justification of taxation, and here and labor abroad, when such difsible benefits to labor, and the enormous additional impositions of the existing tariff fall with crushing force upon our farmers and workingmen, and for the mere advantage of the few whom it enriches, exact from labor a grossly unjust share of the expense of the government, and we demand such a revision of the tariff laws as will remove their inequalities, lighten their oppressions and put them on a constitutional and equal basis. But in making reductions in taxes, it is not proposed to injure any domestic industries, but to promote their healty growth. From the foundation of this government the taxes collected at the custom house have been the chief source of Federal revenue. Such they must continue to do. Moreover, many industries have Murray. come to rely upon legislation for successful continuance, so that any change of law must be at every step regardful of the labor and capital thus involved. The process of reform must be subject in the execution to this plan dictate of justice."

The above paragraph is no part of their platform at all as they would not adopt it, but by a vote of 564 to 342 adopted instead, the following:

"We denounce the Republican Protection as a fraud, taxing the labor of the great majority of the American people for the benefit of ing. They have a number of the few. We notice that other Democratic papers, besides the Herald, have failed to publish this part of their platform, but published instead the Republican doctrine, as the Herald had it. Can it be that they are afraid of their platform or are they only a little "Skeert?"

Some of the Democrats are exhibiting some concern as to what the Republicans are going to do in regard to nominating candidates for county officers. They evidently fear a fusion On this question we will submit a few facts and figures. In the last race for Governor, in this county the following vote was cast: John Young Brown 1559, Wood 929, Erwin 1059. It Was Incendiary.

From investigations that have been made by Officer Miller it is evident thar the fire in Sam Baird's stable Friday night was of an incendiary origin. It will be remembered that Mr. Baird has received several notices to leave the neighborhood in which he lives and in at least one of the warning letters sent he was threatened with fire. The fire bug probably thought the burning of the stable would also destroy the house.
